

THE BOY WITH THE THORN IN HIS SIDE

For most of my life, I felt like something was wrong – like I was living with a shadow I couldn't see, a weight I couldn't name. My childhood was marked by fear, confusion, and memories that never quite fit together. I knew there were pieces missing, but I never expected the truth to be more terrifying than my worst nightmares.

This is my story. A journey through trauma, survival, and the battle to reclaim my own mind. It's about the ghosts of the past that never stopped whispering, the questions no one wanted to answer, and the slow unraveling of a reality I had been forced to forget.

Told with raw honesty, *The Boy with the Thorn in His Side* is not just an account of what happened to me – it's a testament to resilience, a fight for justice, and a message to anyone who has ever felt trapped by their own past.

Sometimes, the truth is the hardest thing to face. But in facing it, we find the strength to break free.
